

17 April 2025

PRESS RELEASE

**Sea Japan 2026**  
**Call for exhibitors for the April 2026 event is now open**  
**The Largest International Maritime Exhibition in Japan**

Informa Markets Japan Co., Ltd., is now accepting applications to exhibit at Sea Japan 2026, an international maritime exhibition to be held at Tokyo Big Sight Exhibition Center from April 22 to 24, 2026.

Sea Japan covers shipbuilding, shipping, and marine equipment, and has been held every two years since 1994. It provides industry professionals from Japan and abroad an opportunity for announcing new products, conducting business negotiations with customers, finding new partners, and building industry networks. The previous edition held in 2024 celebrated the 30th anniversary of the event and was the largest ever.

For the next edition, we aim to further expand the size and scope of this exhibition for the next generation of the maritime industry. In addition to "Offshore & Port Tech", an exhibition that was been held in conjunction with the previous show, this year we will hold "Digital Solution Square" for the first time, focusing on productivity improvement, work style reform and new value creation in the digital field. There will also be a project to promote the development of human resources that will support the next generation of the maritime industry.

**For up-to-date and more detailed information, please visit the Sea Japan website.**
